## Eye Department Baden-Baden

# Dear Patient,

We would like to thank you for your interest in our office. This information outlines our range of services: get an in-sight about what we can do for you!

Eye care, we care: let's make your eyes a vision of health.

We offer the entire range of non-operative and operative ophthalmology services. Our practice is equipped with modern, diagnostic technology in line with the latest scientific developments.

We are comprehensively equipped to fully cater to your ophthalmological needs.

We offer all services covered by statutory health insurance, as well as a range of preventive and diagnostic services.

**Professional, highly-skilled medical treatment ensures something that is important to us all: good vision for life!**

We are at your service whenever you need us.

Your ophthalmologists:

Prof. Dr. Frank Faude

Dr. Susanne Faude

Mrs. Oxana Bräunlich

and the Office Team

## Range of non-operative and diagnostic services:

- » **Retinal vascular analysis** (digital fluorescein angiography), particularly when developing a therapy plan for the treatment of diabetes mellitus, vascular occlusion and macular degeneration
- » **Optical measurement of the eye** using the IOL Master, particularly valuable when preparing for your cataract operation
- » **Ultrasonic diagnostics** (A and B image diagnostics)
- » **Three-dimensional measurement of the optic nerve** using the HRT (Heidelberg retina tomograph), particularly when diagnosing and assessing the development of glaucoma
- » **Three-dimensional measurement of the macula** using OCT (optical coherent topography), for various macular diseases
- » **Three-dimensional measurement of the cornea** using a pachymeter for corneal disorders and when preparing for LASIK therapy
- » **Eye exercises**, under the instruction of our orthoptist as contact person for the diagnosis and treatment of squints, colour perception tests, etc.
- » **Care of premature infants** in collaboration with the children's hospital

## Range of operative services:

- » **Cataract surgery** (grey star) using small incision technology
- » **Implantation of specialised lenses** (multi-focal, toric and blue light filter lenses)
- » **Vitreous surgery** (vitrectomy)
- » **Macular surgery**
- » **Medication for age-related macular degeneration** (intravitreal injection of the latest drugs)
- » **Treatment of age-related macular degeneration with photodynamic therapy**
- » **Intravitreal injections of the latest drugs for diabetic macular oedema**
- » **Intravitreal injections of the latest drugs for venous occlusion in the eye**
- » **Laser treatment for glaucoma**
- » **Laser treatment for diabetic retinal diseases and retinal occlusions**
- » **Laser treatment for secondary cataracts**
- » **Lid operations** (for example, with tumours, ectropion)

As partner of the Stadtklinik, all required surgical procedures are carried out at the Stadtklinik's state-of-the-art surgical centre. Comfortable rooms at the Stadtklinik are available for inpatients.

### **Please don't hesitate to ask any questions...**

Even though many eye operations are routine procedures for us, we fully appreciate that they are far from everyday experiences for our patients. The office team is always happy to answer any questions you may have.

## Office information:

You and your eyes are always our focus!

## How to get to our office at the Stadtklinik:

Our office is situated on the first floor of the Stadtklinik Baden-Baden. The consulting rooms are disability-friendly and accessible by lift.

### **...by car**

From the A5 autobahn, take the Baden-Baden exit in the direction of the Innenstadt (city centre). After the first Cité roundabout, the Stadtklinik is signposted to the right.

From the Black Forest, take the B 500 through the tunnel in the direction of the autobahn and follow the signs to the Stadtklinik.

Adequate parking is available at the Stadtklinik.

### **...by public transport**

Take bus no. 206 in the direction of Balg and alight at the Stadtklinik stop.

## How to get to our office in Lichtentaler Str. 3:

Our office is situated in the centre of Baden-Baden, very close to Leopoldsplatz.

### **...by car**

You will find adequate parking in the Congress car park, the Kurhaus car park or in the Vicentius car park; our office is about a 2-3 minute walk away.

### **...by public transport**

Our office is located on almost all bus routes; alight at Leopoldsplatz or Augustaplatz.
